HAYT FARMSTEAD, Farm Storage Shed

HABS NO. NY-6300-E

HABS  
NY,  
40-PA7  
2-E-

Location: Route 311, Patterson, Putnam County, New York

Significance: This structure contributes to the character of the Hayt Farmstead as an outbuilding.

Description: This storage shed or agricultural outbuilding is a one-room side-gable structure of pegged, braced-frame construction with rough board-and-batten siding and rubble stone footings. The roof is carried on rafters of poles still covered with bark that are butt-joined at the ridge. The roof is covered with composition shingle over wood shingles, and has a narrow molded fascia. The unfinished interior has a wood floor of 5-to-6-inch tongue-in-groove flooring carried on beams which are set directly on the ground. The entry, on the east side, is flanked by 6-light fixed-sash windows.

History: The construction date and use of this building are unknown. However, the shaped battens on the exterior are very like those found on the storage shed (Building B), suggesting that the two structures were built about the same time.

Sources: See Narrative Overview.

Architectural Historian: M.H. Bowers, Louis Berger & Associates, Inc., February 1989.
